

## PUBLIC SERVICE ANNOUNCEMENT

For Immediate Release  
**August 30, 2017**

For More Information:  
**Engineering Department / 228-0440**

### **WETLAND MITIGATION WORK TO BEGIN**

Beginning at 7 a.m. on Tuesday, Sept. 5, Bacco construction will be starting the creation of wetlands for the mitigation of the US 41 Reconstruction Project. This stage of the work will involve recreating a wetlands environment adjacent to the area done years ago for the McClellan Avenue Extension Project. The area will be north and south of the bog walk trail. The trail that comes directly off the parking lot area into the bog walk will be closed during the time of the mitigation project. It is anticipated this project will take three weeks to complete.

The public is advised to use caution when traveling through this area and to be alert for construction and advisory signing.

Construction drawings can be accessed at the City of Marquette web site under the Hospital Transportation Improvements link at [www.marquettemi.gov](http://www.marquettemi.gov).

The City of Marquette asks you for your patience during the construction process.
