FRONT STREET DISRUPTIONS DUE TO SIDEWALK WORK

Beginning at 7 a.m. on Tuesday, Sept. 5, Premeau Construction will be removing and replacing the sidewalk on Front Street, from Washington Street to Ridge Street. Work will be conducted on both sides of the street. As part of this project, stamped concrete and additional tree planters will be placed.

This work will be done with no closure to traffic, though lanes will be narrowed and traffic shifts will be required to complete this work. Pedestrian access will be maintained.

The public is urged to use extreme caution and follow all warning signs and other traffic control measures. The work is expected to be completed by the first week of October.

The City of Marquette asks you for your patience during this process.
