RE: Public Meeting Notification  
City of Marquette - Hospital Relocation Study - Environmental Assessment  
Marquette, Michigan

Dear Sir or Madam:

The City of Marquette (City) is conducting an Early Preliminary Engineering (EPE) study and preparing an Environmental Assessment (EA) for proposed transportation system improvements related to the relocation of the Marquette General Hospital (MGH). MGH is proposed to be relocated from its existing location on West College Avenue to a proposed site on West Baraga Avenue. The enclosed map shows the location of the proposed MGH site and the study area.

As a result of the hospital relocation, roadway, non-motorized facility, and access improvements will be needed to accommodate increased traffic volumes, traffic pattern shifts, and access between the hospital and US-41/M-28. Potential improvement alternatives being considered include construction of new hospital drive accesses onto US-41/M-28, Baraga Avenue, and Washington Street; a bridge carrying Grove/7th Street over US-41/M-28; intersection upgrades (signalization and roundabouts); widening 7<sup>th</sup> Street; non-motorized facilities; re-configuration/removal of parking, and re-alignment of local roads.

During the course of the study, detailed investigations will be undertaken to identify potential Social, Economic, and Environmental (SEE) impacts related to the improvements being considered. These SEE impacts will be documented in an EA as required by the National Environmental Policy Act (NEPA). In addition to meeting the requirements of NEPA, compliance with other relevant environmental regulations (e.g., Section 404 of the Clean Water Act, Section 106 of the National Historic Preservation Act, etc.) will be accomplished during the EA process.

As part of this process, the City will be holding a public meeting on the enclosed potential improvement alternatives on February 25, 2016, from 6:00 – 9:00 p.m. in the Citizen's Forum at Lakeview Arena (401 E. Fair Avenue). The public meeting will offer an opportunity for interaction with the project team and include a presentation on the project at 7:00 p.m.

As a community stakeholder in the project, please consider attending this public meeting, where you will be given the opportunity to review and provide comment on the potential improvement

alternatives. If you cannot make the public meeting, or if you should have any questions, concerns, or seek additional information, please contact me:
