

City of Marquette Solid Waste Program

Hybrid Collection System Selection/Order Form

The City of Marquette Public Works Department is excited to begin the open enrollment period for the hybrid solid waste collection system for the City of Marquette. The system affects single family residences, multi-family residences of five units or less and qualifying small business collections. The system will allow residents to choose a cart system for solid waste and recycling collection or stay on the bag collection system. If you choose to order a cart, please return the form by due date of bill payment. Forms may also be dropped off at City Hall Treasurer office or Municipal Service Center Public Works Department. Orders must be in by September 4th, day after Labor Day. If you do not wish to change your current collection method, do nothing.

The release of the bins will be in stages to allow the hauler to stage, assemble and deliver the bins as well as for our Utility Billing Department to make the transition in the billing system. Expected delivery date will be the end of October. The carts will show up on your curb. Please begin using immediately. The updated fee will appear on the following months utility bill. If you have any questions, please contact Utility Billing at (906) 228-0420 or Public Works at (906) 228-0444 (press 0).
