EAST BARAGA CONSTRUCTION TO BEGIN

Beginning at 7 a.m. on Monday, Sep. 10, the East Baraga Avenue construction project will begin. Access east of Lakeshore Boulevard will be maintained throughout the duration of the project. There will be times when Lakeshore Boulevard will be closed to through traffic to allow for utility construction. Updates will be given when those circumstances happen. This project is expected to last four weeks.

Hebert Construction is the general contractor for this project.

The City of Marquette asks you for your patience during the construction process.
