

## PUBLIC SERVICE ANNOUNCEMENT

For Immediate Release

**Date: September 19, 2018**

For More Information:

**Engineering Department: 228-0440**

Subject:

**Presque Isle Avenue Reconstruction - Phase 4 Work**

Beginning at 7:00 a.m. on Thursday, September 20, 2018 the fourth phase of the Presque Isle Avenue reconstruction project will begin. The fourth phase will include the west half of the street from Center Street to a point north of Fair Avenue. The east half will be open to two-way traffic. This is the fourth phase of five phases with this phase expected to last three weeks.

The Presque Isle Avenue work will detour truck traffic from Presque Isle Avenue to Fair Avenue, Lakeshore Boulevard, Wright Street, and back on to Presque Isle Avenue. This detour route is only for **truck traffic** and will remain this way for the duration of the project. Local truck deliveries for businesses along Presque Isle Avenue from Wright Street to Fair Avenue will have access to this area. Businesses in this area are open and patrons will have access to them.

Traffic will experience lane shifts at each end of this phase. The public is advised to use caution when traveling through this area and to be alert for construction, detour and advisory signing.

A phasing schematic can be accessed at the City of Marquette Engineering Division web site under the Presque Isle Avenue Reconstruction Project link at [www.marquettemi.gov](http://www.marquettemi.gov). Hebert Construction Company is the general contractor for this project.

The City of Marquette asks you for your patience during the construction process.
