# License Types

Type of Establishment	Number Established
Class A Marihuana Grower	
Class B Marihuana Grower	
Class C Marihuana Grower	
Excess Marihuana Grower	
Marihuana Processor	
Marihuana Retailer	
Marihuana Safety Compliance Facility	
Marihuana Secure Transporter	
Marihuana Microbusiness	
Temporary Marihuana Event	
Designated Consumption Establishment	

# Staff Recommendation

Type of Establishment	Number Established	Reason
Class A Marihuana Grower	5	Smallest growing license allowed. Would be limited to industrial zoned areas and have a small estimated growing footprint (50-100 sqft).
Class B Marihuana Grower	5	Similarly small footprint (250-500 sqft). Limited to industrial zoned areas.
Class C Marihuana Grower	2	Larger operation with increased odor nuisance potential. If this number was increased, a zero odor regulation may be warranted. These licenses are able to be stacked by one license holder. Limited to industrial zoned areas.
Excess Marihuana Grower	0	Requires the license holder to have five stacked Class C and two MMFLA Class C licenses to be considered. The State determines the excess amount of plants allowed in increments of 2000 plants. We could increase allowed Class C licenses before needing to address an Excess license.
Marihuana Processor	No Limit	Minimal impact to the public
Marihuana Retailer	5-10	Based on per population distribution of other issuing municipalities.
Marihuana Safety Compliance Facility	No Limit	Minimal impact to the public.
Marihuana Secure Transporter	No Limit	Minimal impact to the public
Marihuana Microbusiness	5	A Microbusiness would have a small growing area footprint and is a comparable operation to Class A license. Also limited to industrially zoned areas.
Temporary Marihuana Event	0 or 1 event/year as a trial	This is untested and the only locations for such an event may end up being City owned facilities (i.e. Mattson Park). It is difficult to recommend more than a handful of licenses for these events given the complete lack of comparable data and unknown public impact.
Designated Consumption Establishment	0-2	This is also an untested license type, even in other legal states. Comparable communities have either opted out entirely or are allowing 6+. It is difficult to recommend more than a handful of licenses for these establishments given the complete lack of comparable data.
