

City of Marquette Solid Waste Program

Hybrid Collection System Selection/Order Form

The City of Marquette Public Works Department is excited to begin the third open enrollment period for the hybrid solid waste collection system for the City of Marquette. The system affects single family residences, multi-family residences of five units or less and qualifying small business collections. This allows residents to choose a cart system for solid waste and recycling collection or stay on the bag collection system.

- If you choose to stay on the bag system but would like a recycle cart, fill out the “Bag System” section.
- If you choose to order a garbage and recycle cart, please fill out the “Cart System” section. You may add an additional recycle cart by checking the box.
- If you want to exchange or return your existing cart(s), please state on form. *All returned carts must be clean to allow redistribution, or they will not be picked up.*
- If you do NOT wish to change your current collection method, do nothing.

Please return the form with bill payment or drop it off at City Hall Treasurer office or Municipal Service Center Public Works Department. **Orders must be in by Monday, December 16, 2019.** It will take approximately 8-12 weeks to receive the order from the manufacturer. The carts will show up on your curb. Please begin using immediately. The chosen system fee will be in place of the current “Solid Waste” fee on your water bill and will appear on the following months utility bill. If you have any questions, please contact Utility Billing at (906) 228-0420 or Public Works at (906) 228-0444 (press 0).
