

Summary Annual Report for City of Marquette Fire and Police Retirement System

This is a summary of the annual report for the Marquette Fire/Police Retirement System. The annual report is for the fiscal year **October 1, 2020 through September 30, 2021**.

The Retirement Board's fiduciary responsibility to you is to supervise the general administration of the system and invest its assets. Our Board retains professional advisors to assist us in fulfilling these duties. The Retirement System is governed by the provisions of Michigan Public Act 345, the City's Charter, the City's Retirement Ordinance and the Retirement Board's official rules and regulations.

Your Retirement System's financial objective is to establish and receive contributions which will remain approximately level from year to year and will not have to be increased for future generations of taxpayers. To determine contribution levels and measure how the system's funding is meeting this fundamental objective, an independent firm of actuaries and employee benefit consultants, Gabriel, Roeder, Smith and Company, conduct our annual actuarial valuation.

Audited Financial Statement for the Plan Year ended September 30, 2021

Actuarial Information for the Plan as of December 31, 2020

The most recent Actuarial Valuation by Gabriel, Roeder, Smith and Company indicates that the recommended contribution rates are sufficient to meet the System's financial objectives.

The system's funded ratio based upon the ratio of valuation assets to actuarial accrued liabilities on a plan-year basis is 78%.

A total of 133 persons were participants in or beneficiaries of the plan, although not all of these persons had yet earned the right to receive benefits. Retirees and beneficiaries currently receiving benefits number 70, vested terminated members, 3, active employees; fire 27, police 33.

The average annual retirement allowance is \$35,769. The total annual retirement benefits being paid is \$2,503,848 with a total valuation payroll (current employees) of \$3,895,846.

The City of Marquette's (employer) computed normal cost of benefits is 27.21% for Police and 26.80% for Fire while the total contribution rate is 49.68% for Police and 45.79% for Fire. The weighted average of employee contributions is 5.70% for Police and 5.67% for Fire.

The actuarial assumed rate of investment return is 6.75%. The actuarial assumed rate of long-term wage inflation is 3.5%-7.0%. In determining the funding value of assets, a 5-year smoothing method is used.

The closed level-percent-open amortization method is used for funding the system's unfunded actuarial accrued liabilities. An amortization period of 17 years for Police and 17 years for Fire is used. The system's actuarial cost method is the Individual Entry Age.

The system's membership is open to each police officer and firefighter employed by the City of Marquette in accordance with Public Act 345 Section 38.562 (12) (1).
